EDUCATION

National Taiwan University

Bachelor of Finance | GPA 3.72 /4.0

Taipei, Taiwan

Sep 2020 ~Dec 2025 (expected)

- Business Analytics Program: Programming Design, Data Analysis and Machine Learning with Python, Programming for Business Computing in Python, Social Media Analytics, Business Intelligence and Data Analytics Capstone, Big Data and Business Analytics, C/C++ Programming, Algorithms, Database Management

Université de Lausanne

Exchange Student – Faculty of Business and Economics | Information Systems and Digital Innovation

Lausanne, Switzerland

Sep 2023 ~ Feb 2024

- Relevant Courses: Text mining, Data Science in Marketing

WORK EXPERIENCE

Boston Consulting Group (BCG)

Part-time Assistant

Taipei, Taiwan

Apr 2024 ~ present

- Conduct market research, competitor analysis, and build pitch decks to support client projects, mainly in the semiconductor sector
- Worked with BCGx to construct a machine learning model which helped a leading semiconductor company automate and improve its material and production demand forecasting accuracy by ~80%
- Built a web crawler using Python to accelerate competitor product benchmarking research projects
- Conducted comprehensive supply chain and material survey to calculate Apple Inc.'s supply chain diversification over a 10-year period
- Collaborated with BCGx Data Scientists to assist a Taiwanese tech company in developing a product pricing model, primarily responsible for calculating transaction order rebates

IBM

Associate Business Consultant

Taipei, Taiwan

Jul 2023 ~ Aug 2023

- Helped a large financial firm revolutionize its manual credit assessment process by building a new credit assessment system from scratch
- Used generative AI, (ChatGPT 3.5) data mining, and prompt engineering (including CoT, few-shot learning, and synonym usage optimization) to incorporate automated ESG data search capability into the credit system, streamlining ESG search workflow by 85%
- Received return full-time offer at the end of the program

Deloitte

Actuarial and Insurance Solutions Consulting Intern

Taipei, Taiwan

Feb 2023 ~ Jun 2023

- Assisted the team in completing several IFRS 17 and VM-21 implementation projects
- Contributed to the development and review of actuarial models, risk management consulting, ESG regulatory consulting, and reserve and embedded value calculations and reviews for insurance industry clients

ANALYTICS PROJECT EXPERIENCE

Business Intelligence and Data Analytics Capstone, House Price Prediction Model

Feb 2024 ~ Jul 2024

Tools: Python, ML model & algorithms (XGBoost) | Skill matrix: web crawling, data mining, machine learning, data visualization

- Developed a predictive real estate price model for Taiwan's largest realty firm using property clustering techniques on public datasets, and macroeconomics indicators to achieve an accuracy rate of 80% in house price forecasts

Social Media Analytics course, Mining Google Map Reviews

Feb 2024 ~ Jul 2024

Tools: Python, ML model & algorithms (PyABSA, FAST_LCF_ATEPC) | Skill matrix: data, sentiment, text, and centrality analysis

- Used Aspect-Based Sentiment and Eigenvector Centrality Analysis to crawl data from Google Map reviews to help customers find structured information on various aspects of reviews

NTU Data Analytics Club project, Gogoro, Public Opinion Analysis & Market Strategy Enhancement

Mar 2023 ~ Jun 2023

Tools: Python, Streamlit, CSS, HTML, ChatGPT | Skill matrix: web crawling, data & text mining, LLM, generative AI, sentiment analysis, data visualization, UI/UX design

- Assisted e-motorbike company Gogoro's marketing team to develop tracking indicators able to automatically generate sentiment grading on the data obtained through web crawling, as well as a dashboard to more effectively track online product customer satisfaction information trends

LEADERSHIP AND INVOLVEMENT

NTU Data Analytics Club | Member

Taipei, Taiwan | Sep 2022 ~ Sep 2023

- Received training in how to apply data analytics tools (SQL, Tableau, Python, Excel) to real and simulated cases
- Build an Airbnb price analysis module for the New York City market

TMBA | Equity Capital Market & Global Investment Research Analyst

Taipei, Taiwan | July 2022 ~ August 2022

- Conducted solar energy industry company research, including industry background investigations, assessment of investment potential, analysis of operational and investment risks
- Did macro research on US Dollar Index and REITs, including analysis of economic conditions, currency policies, and investment targets

J.P. Morgan Private Bank Challenge | Contestant

Taipei, Taiwan | Mar 2022 ~ April 2022

- Regional finalist (top 6); generated client asset allocation reports, providing investment portfolio recommendations, with an expected return of \$4.2M and a volatility of 12.01%, along with individual investment position returns

Global Initiatives Symposium (GIS) | Global Partnership and Delegates Affairs Officer

Taipei, Taiwan | Mar 2021 ~ Jan 2022

- Negotiated with the Mexican embassy in Taiwan to sign MOU for official collaboration with GIS Taiwan
- Attracted several foreign speakers, organized social events and acted as emcee for the events
